Personal statement

I'm a Full Stack web developer, Experienced in working in Agile development environment. Moreover, I'm an ambitious problem solver with a passion for online businesses, and who would like to join a team of like-minded developers. I have much experience of creating logical and innovative solutions to complex problems. I'm thorough and precise in everything I does, and has a keen interest in technology, web applications and user experience. As someone who takes responsibility for his own personal development, I'm continually evaluating and upgrading my skills to stay at the cutting edge of web development. I'm a natural problem solver, and has proven himself by successfully completing projects for IT consultancies, software houses, and IT departments.
